Swing Lock Kit

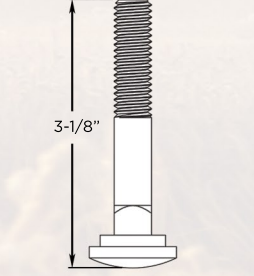

Part No.: **SLH1**

Used in the attachment of all Swing Lock style McKay Crop Lifters

MACDON Kit

Part No.: **SLH2V2**

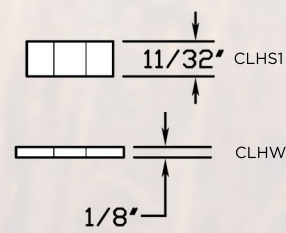

Used only for MACDON Headers with Plastic Skid Plate Kit. Must also use SLH1 Kit

Bolt On Kit

Part No.: **CL01**

Used in the attachment of all Bolt On style McKay Crop Lifters

NOTE: SL01/SLO1S Crop Lifters are for knife guards that are 5.75" from the centre of the bolt hole to the tip of the guard. SL02/SLO2S Crop Lifters are for knife guards that are 4.80" long. SLH1 Hardware Kits are required to be attached to the cutter bar to accommodate installation of all Swing Lock Crop Lifters.

For SL Series Stubby Crop Lifters (SL01SXXX or SL02SXXX) use 225 Suffix for Rigid Headers (eg. SL01S225 or SL02S225) and 150 Suffix for Flex Headers (eg. SL01S150 or SL02S150).

We recommend Grade 8 Bolts for knife guards that use 3/8" bolts.
